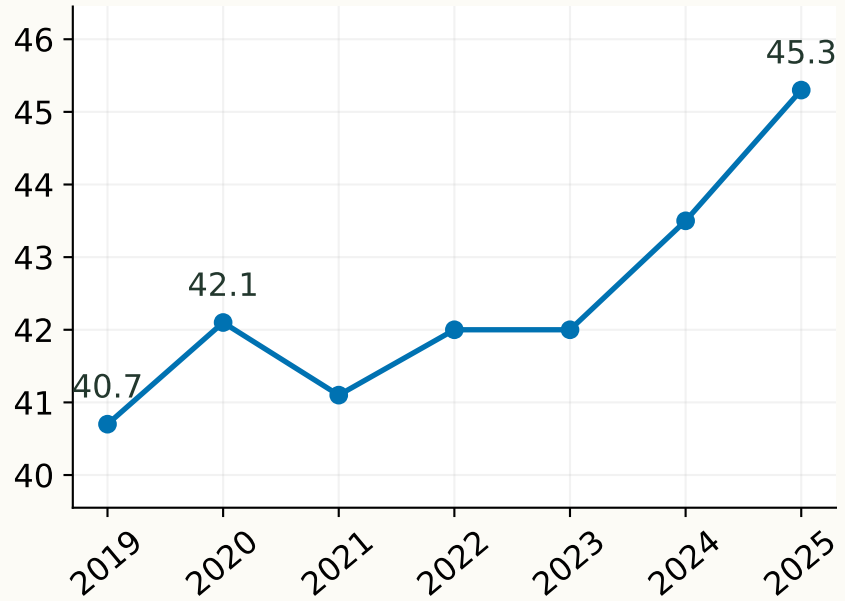
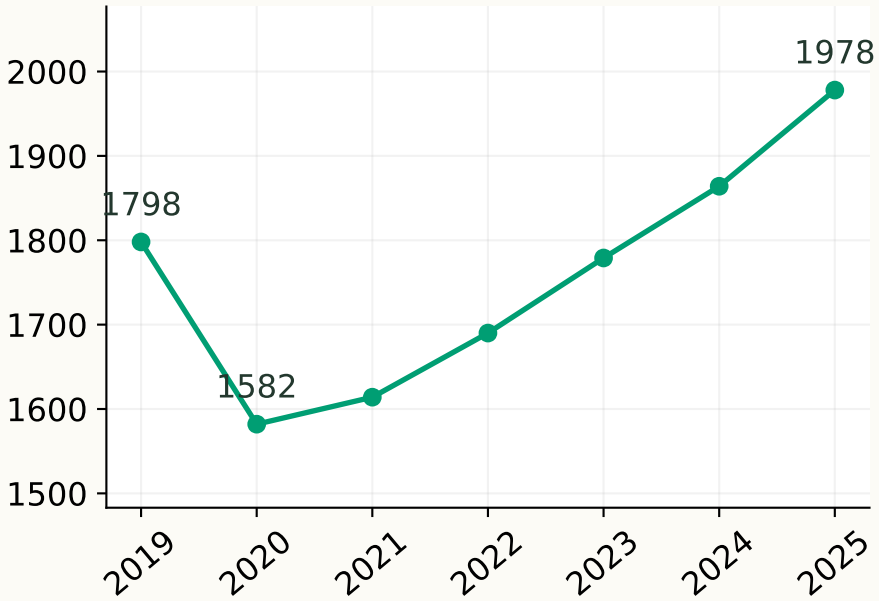
Production and purchasing power have different paths

Malaysia, 2019–2025 · separate measures, populations and price bases

Output per hour
RM at 2015 prices · whole economy



Median monthly employee wage
RM at 2010 prices · citizens + non-citizens



Sources: OpenDOSM annual productivity and real-wage CSVs, retrieved 25 October 2026.
Axes do not start at zero. These series do not measure the share of productivity gains captured by workers.
