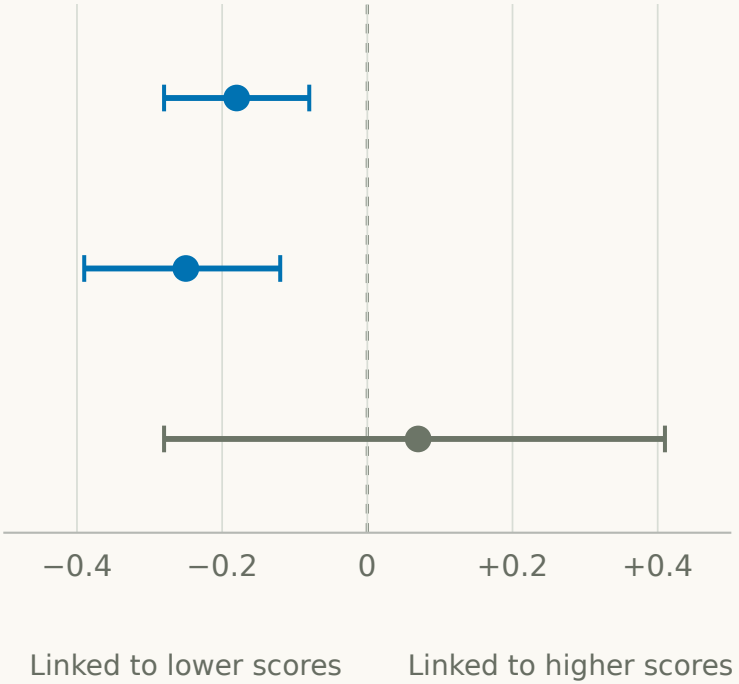
GPS use and navigation ability

2024 systematic review: 23 studies reviewed; 18 in the meta-analysis

Outcome	Pooled r [95% CI]
Environmental knowledge Remembering an area	−0.18 [−0.28, −0.08]
Sense of direction Self-reported	−0.25 [−0.39, −0.12]
Wayfinding performance Finding a route	0.07 [−0.28, 0.41] Inconclusive



Points: pooled correlations (r). Lines: 95% confidence intervals; not percentages.

Mixed study designs and substantial bias concerns; this does not establish general reasoning decline.
